

Conference Collaboration Opportunities EMC2026

Protecting the knowledge and wisdom of natural healing

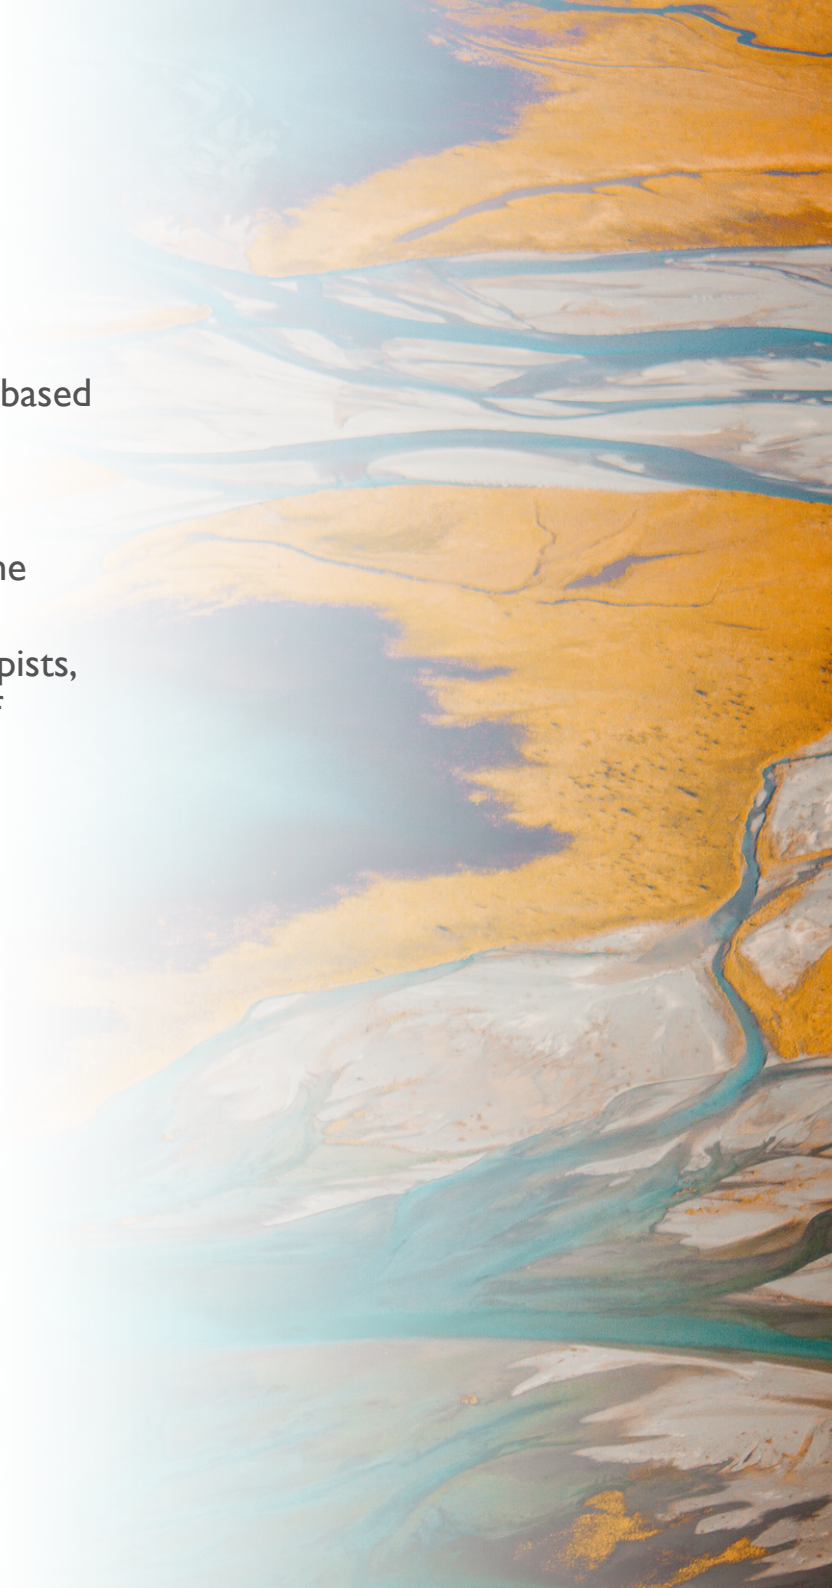

What is Estuary Learning?

Estuary Learning is a not-for-profit education and mentoring movement based on each member's willingness to share their skills and knowledge.

We are a collaboration of practitioners, educators, mentors, and students of natural earth medicine. We are growers, gatherers, small batch medicine makers, tea blenders, cooks, writers, researchers, herbalists, naturopaths, nutritionists, kinesiologists, homœopaths, reiki practitioners, Bowen therapists, and the list is growing. We are an active community with a great depth of experience dedicated to enriching and supporting the living experiential knowledge and art of natural earth medicine for present and future generations.

Wisdom, connection, accessibility.

Every clinic a classroom. Every practitioner a teacher.

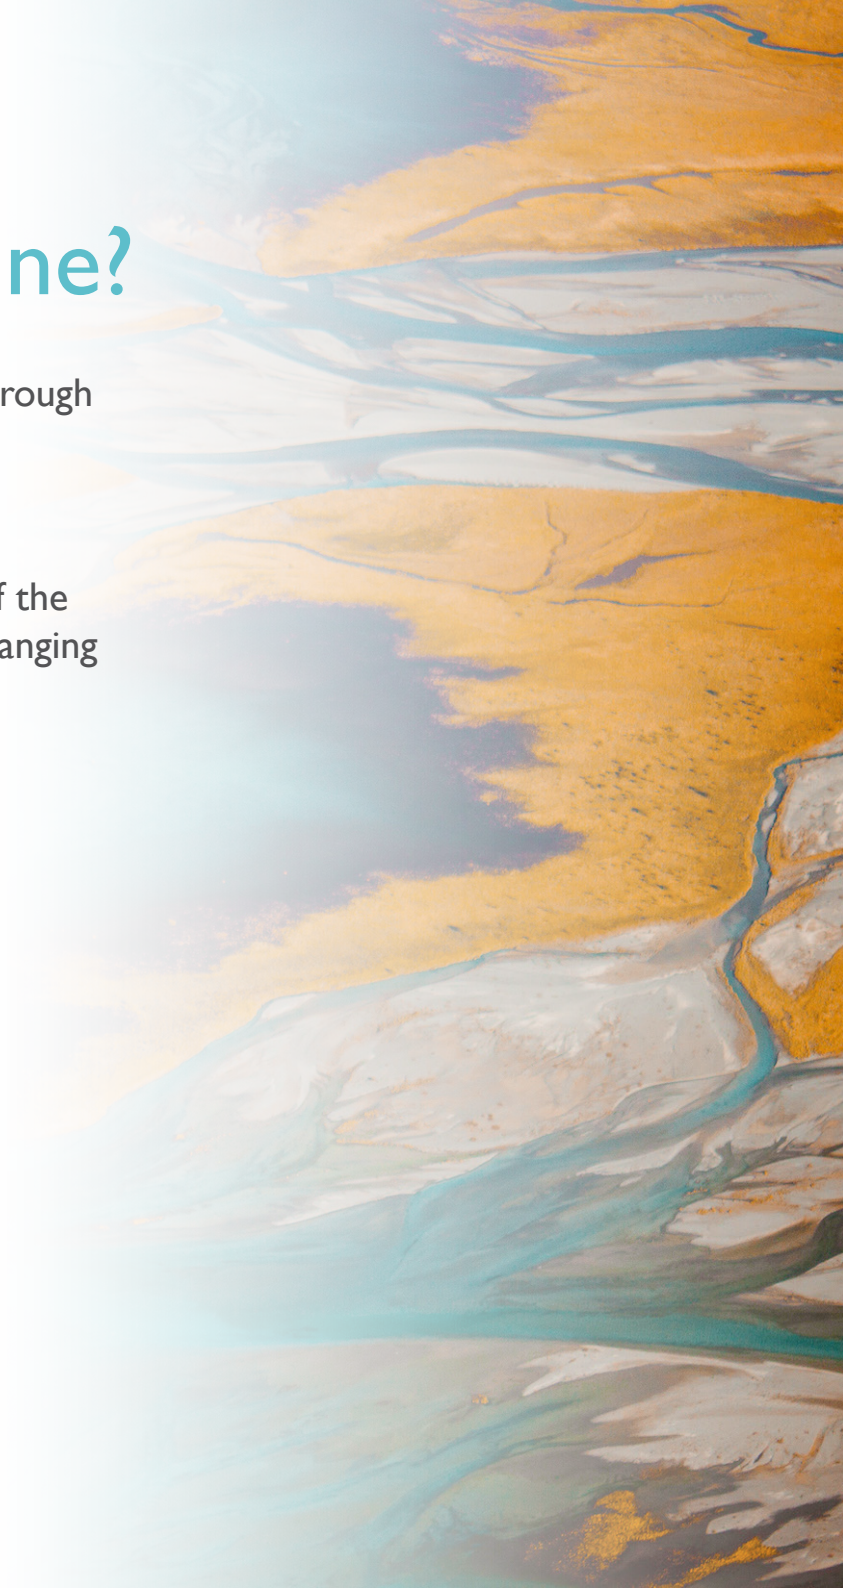

What is Natural Earth Medicine?

Natural Earth Medicine is the traditional wisdom of healing expressed through plant and energy medicine.

It is person focused medicine with earth consciousness.

It holds the intention of balance within the mind, body, heart and spirit of the individual in dynamic relationship with the collective present and ever changing world.

*Estuary Learning is a not—for—profit
education and mentoring movement.
Our purpose is to enrich and support
the art of natural earth medicine.*

Collaboration Opportunities

We invite you to support Estuary Learning Incorporated.

As a partnering organisation, you will:

- Have direct access to entire membership and network to promote your business.
- Strengthen your relationships with new and existing customers.
- Build your reputation as a key stakeholder in the field of natural healing.
- Increase your brand's exposure, and with that, you will have the opportunity to educate prospective clients and connect with our virtual audience.
- Have an Estuary through which to launch new products and increase product awareness.
- Have the opportunity to increase word-of-mouth sales through member interest and education.
- Gain market intelligence through interaction with our membership.
- Connect with like-minded organisations and practitioners.
- Create good Karma.

Event Sponsorship Opportunities

It is with great pleasure that we invite you to support Estuary Learning Incorporated when we all come together on Saturday, 21st & Sunday, 22nd March 2026 for the:

4th Annual Estuary Learning Earth Medicine Conference For the Love of Gaia

As a participating organisation you will:

- Have direct access to all attendees.
- Access to all those purchasing the event recordings.
- Strengthen your relationships with new and existing customers.
- Increase exposure of your brand, building trust and authenticity.
- Have the opportunity to educate prospective customers face-to-face, as well as connect with our virtual audience.
- Have an audience to launch new products and create product awareness.
- Have the ability to increase word of mouth sales through delegate interest and education.
- Gain market intelligence.
- Link with like-minded organisations and practitioners.

2026 Keynote Speaker: Natalie Isaacs

Internationally-published author and inspirational presenter Natalie Isaacs is the founder of I Million Women, a global movement of women and girls who take practical action to fight dangerous climate change by changing the way they live. Her first book, *Every Woman's Guide to Saving the Planet* (HarperCollins/ABC Books, 2018), was republished in the UK in 2020 and in the US in 2021.

Since launching I Million Women in 2009, Natalie has dedicated herself to empowering women to act on climate change. A former cosmetic manufacturer and small business owner, her own climate change journey from apathy to action, delivers a simple message that resonates with women and girls of all ages. Natalie has motivated and empowered tens of thousands of schoolgirls and hundreds of thousands of women to change the way they use energy, buy and consume 'stuff', reduce food waste and other food choices, travel around, make fashion choices and invest their money. Natalie's philosophy is that real behaviour change begins with personal action.

In 2017, Natalie was named the Australian Geographical Society Conservationist of the Year. In 2019, I Million Women won the Rare People's Choice Award - a global award that honours behaviour change innovation - topping the popular vote out of 200 entries from 46 countries.

*Our aim is to keep the traditional
wisdom in its broadest expression
alive and thriving.*
